Engagement Photography - \$150 w/ Wedding Package (\$250 if purchased without package)

Would you like to enclose some beautiful portraits in your wedding announcements? Our engagement photography package is designed to be an affordable way to create some great portraits to share with your families and friends. Engagement photography is typically performed by a single photographer, usually at a location of your choosing around Central Ohio. Dates are subject to our availability. Due to our busy shooting schedule, weekend engagement sessions are limited to off-peak months of the year. Includes disk with all edited images and rights to print.

Payment is accepted by personal check or cash

HOW TO BOOK YOUR WEDDING DATE Payment & Terms: A non-refundable deposit of \$350 is required to book your wedding package. Dates will not be held or secured without payment of a deposit. Dates during the main wedding season (April - October) will often book a full year in advance. There is no guarantee how long a certain date will remain open. A final payment of the remaining balance is due on or before the date of your wedding date.

Area of Service & Travel : For wedding all our packages above there is no travel charges for weddings within a 60 mile range (120 mile roundtrip) of downtown Columbus

Photography Coverage : When planning the amount of coverage for your wedding, "hours of photography" begins when the first photos are taken and continues for the entire time while the photographer is on site.

Additional Coverage & Rehearsals: Additional hours of coverage on your wedding day may be purchased with any package at the rate of \$125 per hour. 5 to 7 hours is generally enough time to capture everything, from the bride getting ready to the reception. But if events are more spread out than normal, you might want to consider additional time.

If you are interested in having your rehearsal photographed you should indicate this when you book your date so the time slot can be held open. Rehearsal coverage is generally \$175 if combined with a wedding package, plus any travel charges if applicable.

Rates for additional full or part days are available upon consultation.

Black & White Prints: In general, any image can be printed in color or black and white. But the best black and white prints will result when the photographer knows in advance that certain images are intended for black and white printing. If you want your package to contain black and white or sepia toned prints just let me know in advance.

Comment on minimum number of wedding prints : My style of photography is such that I take a large number of photos. In most cases the bridal couple will receive between 350 and 2000 images depending on the length of time.

Creative Techniques: There are wide range of creative techniques that can be applied to your photographs, subtle changes in color or toning, mixtures of black and white and color, and other artistic techniques. If you are searching for a certain "look" we can discuss the options available. There is generally no additional charge for creative techniques used.

All prints are custom made by the photographer in studio using professional inks and fine art paper. All prints include meticulous color-correction and retouching to ensure highest quality. Professional framing available.
